Peer-graded Assignment: R Markdown and Leaflet

Create a web page using R Markdown that features a map created with Leaflet.

Host your webpage on either GitHub Pages, RPubs, or NeoCities.

Your webpage must contain the date that you created the document, and it must contain a map created with Leaflet. We would love to see you show off your creativity!

```
my_map <- leaflet() %>%
  addTiles()
my_map <- my_map %>%
  addMarkers(lat = 47.5285, lng = 19.058, popup = "my office")
my_map
```
